

# "Why Do I Hurt?"

**Tuesday June 12**

**5:00p-6:00p**

**PTS, Inc. in Morton, IL**

**1909 N. Morton Ave**

**Morton, IL 61550**

Pain is a normal part of the human experience. Living in pain, however, is not. Recent studies show that 1/3 of Americans suffer from chronic pain of some form. Costs associated with medical management and missed time from work are over \$630 Billion.

Come join us for a brief, free educational presentation on how pain works, why nerves stay sensitive, and learn what you can do to help reduce your pain and improve your function. While you are here, meet our team and tour our facility!

Light refreshments are included. There is no cost to attend.

Please direct questions and RSVP to 309-266-5488 to ensure that enough chairs are available!

*Presentation geared toward patients/general population but medical professionals are also welcome.*
